United States Department of Agriculture

MONTHLY LIST OF PUBLICATIONS AND MOTION PICTURES*

JULY 1946

READ CAREFULLY. Any five of the nontechnical publications listed, unless marked for sale only, may be obtained free as long as the supply lasts. Free distribution of technical material and periodicals is restricted.

Publications will reach you sooner if you use the label attached to page 3 of this list for ordering. List publications wanted in numerical order and write your name and address plainly. Detach label and return in stamped envelope to: Office of Information, U. S. Department of Agriculture, Washington 25, D. C.

Publications cannot be sent free if more than five are wanted or if request comes from a foreign correspondent. In such cases request and remittance should be addressed: Superintendent of Documents, Government Printing Office, Washington 25, D. C. Foreign correspondents should add one-third of the cost of publications to defray postage charges.

This list will be sent free upon request. If you already receive it and have changed your address show your old address as well as new when you request that our records be changed.

BULLETIN OF THE MONTH

"Watch Your Step—Avoid Farm Accidents"

(Miscellaneous Publication 608)

An accident, right now, somewhere, is "looking for a place to happen." To help prevent your farm from being such a place is the aim of this booklet. It is designed to give the farmer an understanding of the problem and to suggest specific measures toward its solution.

FARMERS' BULLETINS

Sewage and garbage disposal on the farm. J. W. Rockey and J. W. Simons. Bureau of Plant Industry, Soils, and Agricultural Engineering. 28 p., illus. (Farmers' Bulletin 1950F., rev.) Price 10¢.

This revised bulletin is a guide to up-to-date methods for the sanitary disposal of sewage and other household and farm wastes. It tells how to construct satisfactory sanitary facilities and how to maintain them and gives special attention to the questions on sanitation asked most frequently by farm people.

LEAFLETS

House ants. E. A. Back. Bureau of Entomology and Plant Quarantine. 8 p., illus. (Leaflet 147L., rev.) Price 5¢.

This revised leaflet describes the species of ants which invade houses and suggests methods for their control.

MISCELLANEOUS PUBLICATIONS

Community canning centers. Production and Marketing Administration. 86 p., illus. (Miscellaneous Publication 544M., rev.) Price 25¢.

As a result of the development of interest in community canning centers many requests for information on their establishment and operation have been received. This publication, a revision, is intended to provide answers to these requests. A section has been added on the establishment and operation of small canning centers that use gas burners.

*Compiled by Eleanor W. Clay, Office of Information.

U.S. DEPOSITORY

Watch your step—Avoid farm accidents. Safety Council, U. S. Department of Agriculture. Supersedes MP 481. 32 p., illus. (Miscellaneous Publication 608M.) Price 10¢. See p. 1.

SERVICE AND REGULATORY MATERIAL

Service and regulatory announcements. Bureau of Animal Industry. May 1946. Pp. 27–30. (S. R. A.–B. A. I. 469.) Price 5¢ a copy, 25¢ a year, domestic; 45¢ a year, foreign.¹

TECHNICAL BULLETINS

Classification of barley varieties grown in the United States and Canada in 1945. Ewert Aberg and G. A. Wiebe. Bureau of Plant Industry, Soils, and Agricultural Engineering. 190 p., illus. (Technical Bulletin 907T.) Price 35¢. Free distribution restricted.

The purpose of this bulletin is to provide descriptions of the varieties of barley grown and a classification key by which they can be identified. The publication is intended for use primarily by agronomists, teachers, students, extension workers, maltsters, tradesmen, and farmers.

Preparation of ammonium nitrate for use as a fertilizer. William H. Ross, J. Richard Adams, J. Y. Yee, Colin W. Whittaker, and Katharine S. Love. Bureau of Plant Industry, Soils, and Agricultural Engineering. 80 p., illus. (Technical Bulletin 912T.) Price 20¢.

Results of investigations to produce a satisfactory ammonium nitrate fertilizer are summarized.

Investigations in erosion control and reclamation of eroded sandy clay lands of Texas, Arkansas, and Louisiana at the Conservation Experiment Station, Tyler, Tex., 1931–40. J. B. Pope, James C. Archer, P. R. Johnson, A. G. McCall, and F. G. Bell. Soil Conservation Service, in cooperation with the Texas Agricultural Experiment Station. 76 p., illus. (Technical Bulletin 916T.) Price 20¢.

Results of 10 years of research relating to soil and water conservation in the Texas-Arkansas-Louisiana Sandy Lands Region are reported. The chief aims of these investigations were to establish ratings on soil and water losses for the problem area, to develop better methods of conserving the topsoil, and to maintain its fertility.

Feed consumption and the production of pork and lard. L. Jay Atkinson and John W. Klein. Bureau of Agricultural Economics. 21 p., illus. (Technical Bulletin 917T.) Price 10¢.

The purpose of this bulletin is to show the relationships between consumption of feed by hogs and output of pork and lard.

PERIODICALS

The agricultural situation. Vol. 30, No. 7. July 1946. Price 5¢ a copy, 50¢ a year, domestic; 75¢ a year, foreign.¹

Agricultural decisions. Vol. 5, No. 5. May 1946. Price of single copy varies depending on size. \$2.00 a year, domestic; \$2.50 a year, foreign.¹

Bibliography of agriculture. Vol. 9, No. 1. July 1946. Price 40¢ a copy, \$4.50 a year, domestic; 45¢ a copy, \$5.50 a year, foreign.¹

Consumers' guide. Vol. XII, No. 7. July 1946. Price 5¢ a copy, 50¢ a year domestic; 70¢ a year, foreign.¹

Home on the range. 1 reel, 16 mm. and 35 mm., sound, black and white. Running time, 10 minutes. Released 1942, revised 1946. An action picture, designed to show the range country busy at its big job of providing meat. Emphasizes improvements made through the Government's range program; the picturesque and practical realities of properly located water holes, windmills, and watering tanks; deferred grazing, and contoured furrows. A fast-action round-up follows, with brief scenes of branding and vaccine injection. The result—good lean grass stock to supply a part of the meat to make America strong.

Saving the garden crop. 1 reel, 16 mm. and 35 mm., sound, black and white. Running time, 13 minutes. Released 1944. In the opening scene we find Mother and Father, Judy and Jimmy deep in the study of seed catalogs, preparatory to planting their victory garden. The picture passes quickly to the happy harvest time when Mother wonders what they will do with all the surplus vegetables. Father decides to store them. The film then demonstrates the best method of storing onions, beans, peas, apples, carrots, salsify, squash, pumpkins, potatoes, sweet-potatoes, turnips, parsnips, and cabbage.
